Autauga County	43,671	54,571	56,223	60,715	64,927	68,883	72,735	76,356	21,785	39.9

Note: These projections are driven by population change between Census 2000 and Census 2010. Data on recent housing and economic development as well as population estimates from 2010 to 2013 are used to update the 2000 to 2010 trends. For 2015 to 2040, the sum of county tract projections is controlled to the county total population forecast, which was independently derived using a cohort component model.
